1	Analysis	Dwavne Edwards	Mon 18/5/15	0 44/0/45	00	100%	20	
1.1 1.2	Analyse current business processes	Dwayne Edwards Dwayne Edwards				100%		
	Map business data					100%		
1.3	Carry out literature search and review	Dwayne Edwards		Wed 12/8/15				
1.4	Map system functional and non functional requirements	Dwayne Edwards				100%		
1.5	Ensure all hardware resources are available	Dwayne Edwards				100%		
1.6	Install required software resources	Dwayne Edwards	Mon 06/7/15	Sun 12/7/15	7	80%	5	
	Set up repository for version control and tracking of							
1.7	system development	Dwayne Edwards				100%		
1.8	Carry out risk assessment for project	Dwayne Edwards	Mon 13/7/15	Sun 19/7/15	7	100%	5	
2	Design					-		
2.1	Draw use case diagrams	Dwayne Edwards				40%		
2.2	Draw class diagrams	Dwayne Edwards				40%	10	
2.3	Draw storyboard for GUI	Dwayne Edwards				100%		
2.4	Draw sequence diagrams	Dwayne Edwards				100%		
2.5	Normalize business data	Dwayne Edwards				100%		
2.6	Draw Entity Relationship model	Dwayne Edwards				100%		
2.7	Create dummy data to imitate business data	Dwayne Edwards			7	100%		
2.9	Write test scripts for testing	Dwayne Edwards	Mon 03/8/15	Sun 30/8/15	28	100%	20	
3	Implementation							
3.1	Create the database for the distributed system	Dwayne Edwards				100%		
3.2	Import dummy data into the database	Dwayne Edwards	Sun 23/8/15	Sun 23/8/15	1	100%	0	
	Separate classes into client side, server side and							
3.3	common classes	Dwayne Edwards				100%		
3.4	Carry out coding of interfaces for common classes	Dwayne Edwards	Mon 31/8/15	Sun 06/9/15	7	100%	5	
	Carry out coding for server side general business logic							
3.5	(without remote invocation or persistance)	Dwayne Edwards	Mon 07/9/15	Sun 20/9/15	14	100%	10	
	Carry out coding for client side GUI (without remote							
3.6	invocation)	Dwayne Edwards	Mon 07/9/15	Sun 04/10/15	28	35%	20	
	Carry out coding to implement remote invocation in the							
3.7	system	Dwayne Edwards	Mon 21/9/15	Sun 04/10/15	14	100%	10	
	Carry out coding to implement persistence to connect the							
3.8	application to the database	Dwayne Edwards	Mon 28/9/15	Sun 25/10/15	28	100%	20	
l	Carry out coding to implement observable pattern for							
3.9	update of home screen of the system	Dwayne Edwards	Mon 05/10/15	Sun 18/10/15	14	100%	10	
L	Develop the website to advertise 'MSc Properties'							
3.10		Dwayne Edwards	Mon 12/10/15	Sun 08/11/15	28	0%	20	
	Carry out changes required from unit testing results to g							
3.11	failure rate to an acceptable level	Dwayne Edwards	Mon 28/9/15	Sun 08/11/15	42	100%	30	
l	Carry out changes required from system testing results							
3.12	get failure rate to an acceptable level	Dwayne Edwards				100%	30	
3.13	Create a user manual for the system	Dwayne Edwards	Mon 19/10/15	Sun 06/12/15	49	0%	35	
4	Testing							
4.1	Carry out unit testing	Dwayne Edwards		Sun 08/11/15		80%		
4.2	Analyse the unit testing results	Dwayne Edwards				100%		
4.3	Carry out system testing	Dwayne Edwards				80%		
4.4	Analyse the system testing results	Dwayne Edwards				100%		
4.5	Test the user manual	Dwayne Edwards	Mon 30/11/15	Sun 13/12/15	14	0%	10	
5	Evaluation							
5.1	Carry out evaluation of project	Dwayne Edwards	Mon 07/12/15	Sun 03/1/16	28	100%	20
